WHEREAS, the Property contains many aging structures that are non-conforming to required codes; are below the required Federal Emergency Management Agency (“FEMA”) base flood elevation; are highly vulnerable in storm events, both structurally and due to elevation; and

WHEREAS, the Property presently has little erosion control or stormwater management system; and

WHEREAS, the City desires the redevelopment of such properties to enable aging tourist facilities to redevelop in a manner that is consistent with market trends in the leisure and hospitality industry for RV Parks such as proposed, as well as hotel / motel redevelopment; and

WHEREAS, the City of Marathon desires to encourage development and redevelopment of aging hotels and motels in the City to attract tourism, enhance the economy of the City for the benefit of its residents, improve the good appearance of the City, enhance the City's ability to support needed improvements in infrastructure, and encourage other redevelopment efforts for the economic growth, prosperity and welfare of the residents of the City of Marathon; and one of the City's enhancement and redevelopment goals are to attract 'family oriented' tourism and the Property offers the attractions of swimming, boating, and fishing that families enjoy; and

WHEREAS, in the past number of years, the City of Marathon has benefited from the economic success of other hotel/motel redevelopment projects and enhancements to its tourist economic base to assist in the City's economic recovery, growth, and continued vitality;

WHEREAS, the City needs economically feasible redevelopment of its existing tourist infrastructure to provide quality accommodations to attract the "family market" tourists to Marathon; and

WHEREAS, the City needs redevelopment to protect the environment, its citizens, its infrastructure and economy by redeveloping structures that are highly vulnerable in storm events, are below the required base flood elevations and are uninsurable; and

WHEREAS, the redevelopment contemplated by the Owner will remove existing structures and reconstruct structures in compliance with all applicable FEMA regulations, DOH regulations, applicable building codes, Land Development Regulations (LDR's) and the City Code; and

WHEREAS, as part of the Property redevelopment, the Owner will be required to connect to the City of Marathon Sewer System; and

WHEREAS, the Property is zoned Mixed Use; and

WHEREAS, the City has determined that the redevelopment will not adversely affect hurricane evacuation clearance time, as RV units are required to leave prior to the 24 hour required evacuation time, and as reflected in the traffic study as performed by Transport Analysis Professionals; and

WHEREAS, the Property is a highly disturbed, fully developed upland site which does not contain wetlands, listed species habitat, or other environmentally sensitive habitat, and therefore is an appropriate and preferred site to support redevelopment; and
