BACKGROUND:

The proposed project is the platting of individual lots for each unit. This report addresses the Conditional Use application associated with the Platting and Subdivision regulations.

All conditions of the Conditional Use approval will have to be met before any building permit will be approved.

EVALUATION FOR COMPLIANCE WITH THE LAND DEVELOPMENT REGULATIONS:

The criteria for evaluating a Conditional Use Approval are outlined in Chapter 102, Article 13, Conditional Use Permits, in the City of Marathon Land Development Regulations.

CRITERIA

A. The proposed use is consistent with the Comprehensive Plan and LDRs;

The proposed development project is located within the Mixed Use (MU) Zoning District. Per Chapter 103, Article 2, Section 103.09 of the Land Development Regulations, the district is designed to “accommodate a wide variety of commercial and retail activities that will result in the most efficient and attractive use of the City’s historic business district and the US1 Corridor, in an effort to recognize the role of US1 as the City of Marathon’s ‘Main Street.’ The MU district also provides for large-scale retail and commercial business opportunities in other areas, including larger shopping center, specialty shopping centers, individual multi-tenant commercial buildings, automotive services and sales, fast food restaurants, affordable housing uses, transient lodging and other retail establishments that serve the community at large”.

Table 103.15.2 in the Land Development Regulations establishes constraints on density and intensity allowed in the MU district based on the types of uses proposed. Using the property area, the proposed use can have up to 11 residential units, however the applicant is just subdividing the lot so that each of the existing 3 residential units is on its own lot. Table 103.15.3 further qualifies the allowed range of intensities based on the intensity of retail use.

Development Type	Proposed	Maximum Allowed
Residential Units		
Market Rate	3	11

The project as proposed meets the basic definition of development in the MU zoning district.

Therefore, the request is ***in compliance*** with the requirements of these sections.

B. The proposed use is compatible with the existing land use pattern and future uses designated by the Comprehensive Plan;

The proposed project is located within the Mixed-Use Commercial Future Land Use District. Policy 1-3.1.4 of the City of Marathon Comprehensive Plan states that the “principal purpose of the Mixed-Use Commercial land use category is to provide for the establishment of mixed-use development patterns and to recognize established mixed use development patterns within the City.” The project as originally approved included mixed use development of transient RV rights, affordable housing, and commercial retail, which is consistent with the Mixed-Use classification. At this juncture, the previously approved RV Park component was separated from the rest of the development and is now being proposed to be platted into seven single family lots.

The existing land use pattern in the project vicinity consists of commercial use and vacant land to the east; commercial uses and (mixed use) to the south; The Quay and The Island restaurant to the west; and the Gulf of Mexico directly north.

Section 103.15, Table 103.15.2, “Uses By Zoning District,” establishes whether specific uses are allowed as of right, limited, accessory or conditional use permit. That table shows that Plats and subdivisions are permitted only when approved through the Conditional Use Permit process. Conditional Use Permit review is intended to allow a broader view of the potential impacts of a

project on adjacent uses and on City concurrency related resources such as road capacity, solid waste, sewer, and potable water availability.

Otherwise, the development of the site will result in significant improvement to the site development quality, including upgraded landscaping, stormwater management, and architecture. The improvements are expected to have a positive benefit on the surrounding uses and the City of Marathon.

Therefore, the request is ***in compliance*** with the requirements of these sections.

C. The proposed use shall not adversely affect the health, safety, and welfare of the public;

The proposed conditional use does not adversely affect the health, and welfare of the public. The impacts on surrounding properties as a result of the proposed development should be positive.

Plans submitted with the project are suitable for the Conditional Use Approval as they relate to Chapter 107, Article 12, 100 Year Floodplain. Two of the existing structures meet floodplain compliance. The third is PreFIRM (built in 1962) but is proposed to be redeveloped so that it will meet current floodplain requirements.

Therefore, the request is ***in compliance*** with the requirements of these sections.

D. The proposed conditional use minimizes environmental impacts, including but not limited to water, air, stormwater management, wildlife, vegetation, wetlands, and the natural functioning of the environment:

The existing conditions maps indicate the subject area is designated as Developed Land. Portions of the land are flagged as undeveloped land. The State-owned land next door is also listed as hammock. However, the existing and proposed development will have no impact on the neighboring hammock.

In addition, the parcels are within a ‘Species Focus Area’ as defined in the settlement for FEMA-FWS lawsuit. All permitting will be required to be reviewed for compliance using the species assessment guides.

Further improvements to water quality are expected to arise from stormwater improvements to the site, which should provide up-to-date treatment and eliminate any existing discharges to surface waters. The applicant has submitted preliminary stormwater plans suitable for the Conditional Use Application, and final plans are required prior to building permit issuance.

Site landscaping will be selected from Table 107.68.1, Appendix A, Article 8, Section 107 of the City of Marathon Code of Ordinances. The native vegetation will improve the environmental quality of the site and reduce irrigation needs. The applicant has previously coordinated with DOT for the removal of native vegetation in the US 1 ROW and replacement plantings within this area.

Therefore, it is staff’s opinion that the request is **in compliance** with the requirements of these sections.

- All development permits will require review using the species assessment guides per the FEMA/FWS settlement.

E. Satisfactory provisions and arrangements have been made concerning the following matters, where applicable:

1. Ingress and egress to the property and proposed structures thereon with particular reference to automotive, bicycle, and pedestrian safety and convenience, traffic flow and control and access in cases of fire or catastrophe;

The existing development currently does not impede the flow of traffic through Marathon. The applicant has received preliminary approval from the FDOT for the additional driveways to be created based upon the subdivision of the parcel.

Section 107.43 requires site triangles where the access drive intersects with the street. Clear site triangles must be shown on the site plan at time of DOT permit issuance.

Therefore, with conditions, the request is **in compliance** with the requirements of these sections.

- Applicant must obtain DOT permits for the installation of the two additional driveways onto US 1.

2. Off-street parking and loading areas where required, with particular attention to item 1 above;

Parking requirements are outlined in Section 107.46 (Parking Schedule). The following table shows the parking requirement for the residential uses on the parcel:

Use	Code Citation	Requirement	Spaces Required
Single and Two-Family, attached and detached	107.46.1	2 per dwelling unit	6
Total Required			6
Total Provided			6

The existing buildings provide sufficient parking space per the code.

Therefore, the request is **in compliance** with the requirements of these sections.

3. The noise, glare, or odor effects of the conditional use on surrounding properties;

The proposed project consists of three single family dwellings. No issues of noise, glare or odor have arisen from this use, nor are they expected to.

Therefore, the request is **in compliance** with the requirements of this section.

4. Refuse and service areas, with particular reference to locations, screening, and Items 1 and 2 above;

Section 107.39 requires that all dumpsters and recycling bins be fully enclosed and screened. The applicant proposes individual garbage containers similar to what is existing on site. Should a shared dumpster be proposed it must be screened according to Code.

Therefore, the request is **in compliance** with the requirements of this section.

5. Utilities, with reference to location and availability;

Chapter 107, Article 13, establishes the City's Concurrency Management and certification requirements. This Conditional Use constitutes the City's Concurrency Level of Service Certificate, as follows:

- **Wastewater**: The applicant is already connected to wastewater.
- **Water**: The Florida Keys Aqueduct Authority already provides potable water for the facility.
- **Solid Waste**: Marathon Garbage Service already provides solid waste disposal.
- **Surface Water**: The applicant already provides stormwater retention compliance within City standards.
- **Recreation and Open Space**: This development will have a de minimus impact on recreation and open space.
- **Roadways**: The units currently exist; therefore, resulting in a de minimus impact on transportation facilities.
- **Educational Facilities**: This redevelopment will have a de minimus impact on educational facilities since these are existing units.

Therefore, the request is **in compliance** with the requirements of these sections.

6. Screening and buffering with reference to type, dimensions and character;

Section 107.71 A. requires planting requirements for MU properties along US 1. The applicant has already planted trees in coordination with DOT, and meeting the standards set forth in 107.71 A.

Table 103.15.2 outlines setback requirements in the MU district as follow: front yard 0 – 30'; side yard 1 and 2, 0 – 10; interior side yard, 10; and, street side, 0-5'.

Table 106.28.1 outlines setbacks requirements for a Principal structure on open water where original slope landward has been significantly altered by filling but a mangrove fringe exists that is contiguous from side lot line to side lot line and is at least ten (10) feet wide at the root zone;

have a setback requirement of thirty (30) feet from MHWL or the landwards extent of the mangrove root system. A resource buffer distance is set at a 30-foot minimum from MHWL, since that is further landward than the root system.

This plan shows an 86’ setback on the front yard, a minimum of 8’ setback on the side yards, approximately 33’ setback on the nearest shoreline.

Setback	Required	Required Landscape	Existing	Compliant
Front	30	10	86	Y
Side	5	N/A	5	Y
Side	5	N/A	5	Y
Shoreline	30	N/A	33	Y

Therefore, with conditions, the request is **in compliance** with the requirements of these sections.

7. Signs, if any, and proposed exterior lighting with reference to glare, traffic safety and compatibility with surrounding uses;

No signs are proposed as these are existing single-family residences. There are also no proposed changes to the exterior lighting that would cause glare or issues with traffic safety.

Therefore, the request is **in compliance** with the requirements of these sections.

8. Required yards and other open space;

Section 106.16 established required open space for the project. The parcel is generally considered developed; therefore, a twenty percent open space requirement applies. To the greatest extent possible, the Applicant will be required to protect Regulated Trees, pursuant to Chapter 106, Article 2 of the LDRs. According to the existing survey the lots well exceed the 20% open space requirement. When the one existing preFIRM structure is replaced, the plans will be reviewed to make sure the open space requirement is continued to be met.

Therefore, the request is **in compliance** with the requirements of these sections.

9. General compatibility with surrounding properties; and

The project is subdivision of one parcel into three for the existing use of the three homes. Adjacent uses include commercial establishments. A redevelopment of residential dwellings is expected to be fully compatible with these uses. The proposed redevelopment of the PreFIRM home will be an improvement to the current state of prior development and is expected to increase compatibility with surrounding properties.

Section 107.40 restricts the height of buildings to 42’ as measured from the crown of the roadway or unimproved grade. The buildings are below 42’.

Therefore, the request is **in compliance** with the requirements of these sections.

10. Any special requirements set forth in the LDRs for the particular use involved.

Section 104.48 Residential Dwelling Units contains special requirements.

The following criteria are applicable to this redevelopment:

- Plans must show a 10' interior setback between residential units.
- Any future alterations to the existing docking facilities will require the applicant to provide a copy of the DEP and ACOE permits and shall meet all conditions for Multi-family docking facilities. Docking facilities are a permitted use by right in all zoning districts.

Therefore, with the conditions note above, the request is **in compliance** with the requirements of this section.

CONCLUSION:

The Conditional Use approval is intended to allow for the integration of certain land uses and structures within the City of Marathon based on conditions imposed by the Council. Review is based primarily on compatibility of the use with its proposed location and with surrounding land uses. Conditional uses shall not be allowed where the conditional use would create a nuisance, traffic congestion, a threat to the public health, safety, or welfare of the community.

The proposed development plat allows for the subdivision of the lot into three individual lots, one for each home. As such the development, including the overall upgrading and improvement of the site, furthers the policies for development in the City and is consistent with the Comprehensive Plan and Land Development Regulations. The project is compatible with surrounding uses, and is not expected to create a nuisance, traffic congestion or threat to public, health, safety, or welfare.

RECOMMENDATION:

The Planning staff recommends conditional approval of the Subdivision to the Planning Commission. The proposed conditions of approval are listed below.

Planning Commission recommended conditional approval of the subdivision to City Council (4-0).

Conditions of Approval

1. Plans must show a 10' interior setback between residential units.
2. Any future alterations to the existing docking facilities will require the applicant to provide a copy of the DEP and ACOE permits and shall meet all conditions for Multi-family docking facilities. Docking facilities are a permitted use by right in all zoning districts.
3. Clear sight triangles must be shown on the site plan at time of DOT permit issuance.
4. The Conditional Use Development Order will constitute the Certificate of Concurrence for the project. The determination will be valid for one year.

ANALYSIS OF PLAT APPROVAL REQUEST:

The standards for re-plat approval are established in Chapter 102, Article 10 of the Land Development Regulations. The application for the preliminary plat approval is being simultaneously reviewed per Section 102.45.D.2. through the Conditional Use process. Pursuant to the Code, the Planning Commission and City Council shall give due consideration to the evaluation criteria addressed within this report as well as the Conditional Use when rendering a decision to grant or deny the requested permit.

RECOMMENDATION:

With the following conditions, the Planning staff recommends approval of the proposed final plat.

Conditions:

1. All utility and right-of-way permits shall be obtained and issued prior to final plat approval.
2. Applicant must obtain permits from FDOT for driveway installations.
3. All conditions of the Conditional Use must be met prior to building permit issuance.

FINDINGS OF FACT:

1. The applicant will develop subdivide the parcel through the platting process into single family residence lots with the following determinations:
2. In accordance with Section 102.77 of the City Code, the Commission and Council considered and determined the Applicant met the following criteria:
 - a. The proposed use is consistent with the Comprehensive Plan and LDRs;
 - b. The proposed use is compatible with the existing land use pattern and future uses designated by the Comprehensive Plan;
 - c. The proposed use shall not adversely affect the health, safety, and welfare of the public; and
 - d. The proposed conditional use minimizes environmental impacts, including but not limited to water, air, stormwater management, wildlife, vegetation, wetlands, and the natural functioning of the environment; and Satisfactory provisions and arrangements have been made concerning the following matters, where applicable:
3. Ingress and egress to the property and proposed structures thereon with particular reference to automotive, bicycle, and pedestrian safety and convenience, traffic flow and control and access in case of fire or catastrophe;
4. Off-street parking and loading areas where required, with particular attention to item 1 above;
5. The noise, glare or odor effects of the conditional use on surrounding properties;
6. Refuse and service areas, with particular reference to location, screening and Items 1 and 2 above;
7. Utilities, with reference to location and availability;
8. Screening and buffering with reference to type, dimensions and character;

9. Signs, if any, and proposed exterior lighting with reference to glare, traffic safety and compatibility with surrounding properties;
10. Required yards and other open space;
11. General compatibility with surrounding properties; and

CONDITIONS IMPOSED:

Granting approval of the Application is subject to the following conditions:

Conditions of Approval

1. Plans must show a 10' interior setback between residential units.
2. Any future alterations to the existing docking facilities will require the applicant to provide a copy of the DEP and ACOE permits and shall meet all conditions for Multi-family docking facilities. Docking facilities are a permitted use by right in all zoning districts.
3. Clear sight triangles must be shown on the site plan at time of DOT permit issuance.
4. The Conditional Use Development Order will constitute the Certificate of Concurrence for the project. The determination will be valid for one year.

VIOLATION OF CONDITIONS:

The applicant understands and acknowledges that it must comply with all of the terms and conditions herein, and all other applicable requirements of the City or other governmental agencies applicable to the use of the Property. In accordance with the Code, the Council may revoke this approval upon a determination that the Applicant or its successor or designee is in non-compliance with this Resolution or Code. Failure to adhere to the terms and conditions of approval contained herein is a violation of the Code and persons found violating the conditions shall be subject to the penalties prescribed therein.

CONCLUSIONS OF LAW:

Based upon the above Findings of Fact, the Council does hereby make the following Conclusions of Law:

1. The Application has been processed in accordance with the applicable provisions of the City Code, and will not be detrimental to the community as a whole; and
