Location Map**

Background:

This is a request presented by Deborah Kronebusch for the abandonment of the City’s right-of-way located on 58090 Overseas Highway, Crain’s Subdivision Grassy Key. The applicant states they would like Council to abandon a portion of Flagler Street as shown in the location graphic above and in the survey of the area to be abandoned. The applicant states they will grant a utility easement to the City of Marathon and all utilities for current and future use.

Flagler Street, is a 30 foot wide platted road in Crain’s Subdivision of Grassy Key (See Figures 2 & 3). Flagler Street traverses the width of Crain’s Subdivision from approximately Kyle Avenue to the area across from Grassy Key RV Park landward of and contiguous to the Crain’s Subdivision properties lying to the south of U.S. Highway 1. As platted, it is approximately 1.25 miles long. The road would appear to be a part of the U.S. Highway 1 Right-Of-Way as it is contiguous to and runs parallel with the state road. However, it is a part of the Crain’s Subdivision plat. The majority of properties on the Ocean side of U.S. 1 which are a part of Crain’s subdivision have sought an abandonment previously or have occupied Flagler Street for more than thirty (30) years, particularly, the resorts.

Municipalities derive their power to vacate municipally owned rights-of-way from Section 166.042, Florida Statutes that provides that former Section 167.09, Florida Statutes (1972) remains effective.

Former Section 167.09, Florida Statutes provides that municipalities may "...discontinue any public park, public square, street, avenue, highway or any other way..."

Section 26-3 (1) & (2) of the City Code (Ordinance 2015-08, not codified as of this date), restricts the City's authority to abandon rights-of-way, as provided by state law, by imposing the following conditions:

Section 26-3 General Provisions

(1) Approval of Abutting Property Owners

As part of the submittal process, documentation is required that there are no objections from abutting property owners. In the event that such an objection occurs, then the Petitioner may further petition to be heard by the City Council in a review which would require a super majority vote if approved.

(2) Access to Water.

No right of way, road, Street, or public access way giving access to any publicly accessible waters in the City of Marathon, Florida, shall be closed, vacated or abandoned unless:

- a. the City Council determines at a public hearing that the petitioner meets all of the review criteria of this Article; and
- b. only in those instances wherein the Petitioner(s) offers to trade or give to the City comparable land or lands for a right of way, road, street or public access way to give access to the same body of water, such access to be of such condition as not to work a hardship to the users thereof, the reasonableness of the distance and comparable land being left to the discretion of the City.

Analysis

Section 26-7 of the Code establishes criteria the City must consider when reviewing applications for right-of-way abandonment as follows:

Section 26-7 Review of Petition.

- (1) Review by Technical Review Committee - each petition shall be reviewed by the City and any governmental agency or City department deemed affected by the petitioner's request. Upon receipt of receipt of a complete and sufficient petition, the City shall distribute the petition to appropriate reviewing departments and agencies. Within thirty (30) days, the City will hold a meeting of the Technical Review Committee (TRC) meeting pursuant to Chapter 101, Article 4 of the City's Land Development Regulations (LDRs). Within fifteen (15) days of the date of the TRC meeting, a report of objections, recommendations, or conditions shall be forwarded to the Petitioner for their review and action as may then be necessary. Within ninety (90) days of receipt of notification from the TRC the Petitioner shall comply with, agree and commit in writing to' the conditions, or disagree in writing to the conditions. Failure to respond to Notification from the TRC shall result in a recommendation to deny the petition to the City Council.

(2) Review Criteria - Upon review of the application, and prior to a public hearing before City Council the chairperson of the TRC shall submit to City Council a written report recommending approval, approval with conditions or denial of the proposed right-of-way abandonment. This report shall take into consideration the following criteria:

- a. Whether the proposed abandonment will adversely affect the operations and functions of the City;

Staff Assessment: The abandonment of this right-of-way will not adversely affect the functions of the City. Crain's Subdivision of Grassy Key was platted in 1908. Apparently, Flagler Street has never functioned for its platted purpose as a parallel access road. The subdivision began to develop in the 50s and 60s and then again with more intensity in the late 80's and 90s. During that period, Flagler Street has not been improved or used as a road.

There are ninety-one (91) individual properties along the oceanfront shore of Crain's Subdivision (See Figure 2). Many of these properties have abandoned Flagler Street over the years (See Figure 3).

Based on this portion of the analysis the Council should consider undertaking an abandonment of the entire Flagler Street Right-Of-Way (ROW) except for those two area of ROW which led to open water.

Figure 2
Crain's Subdivision of Grassy Key – Oceanfront Shoreline Properties

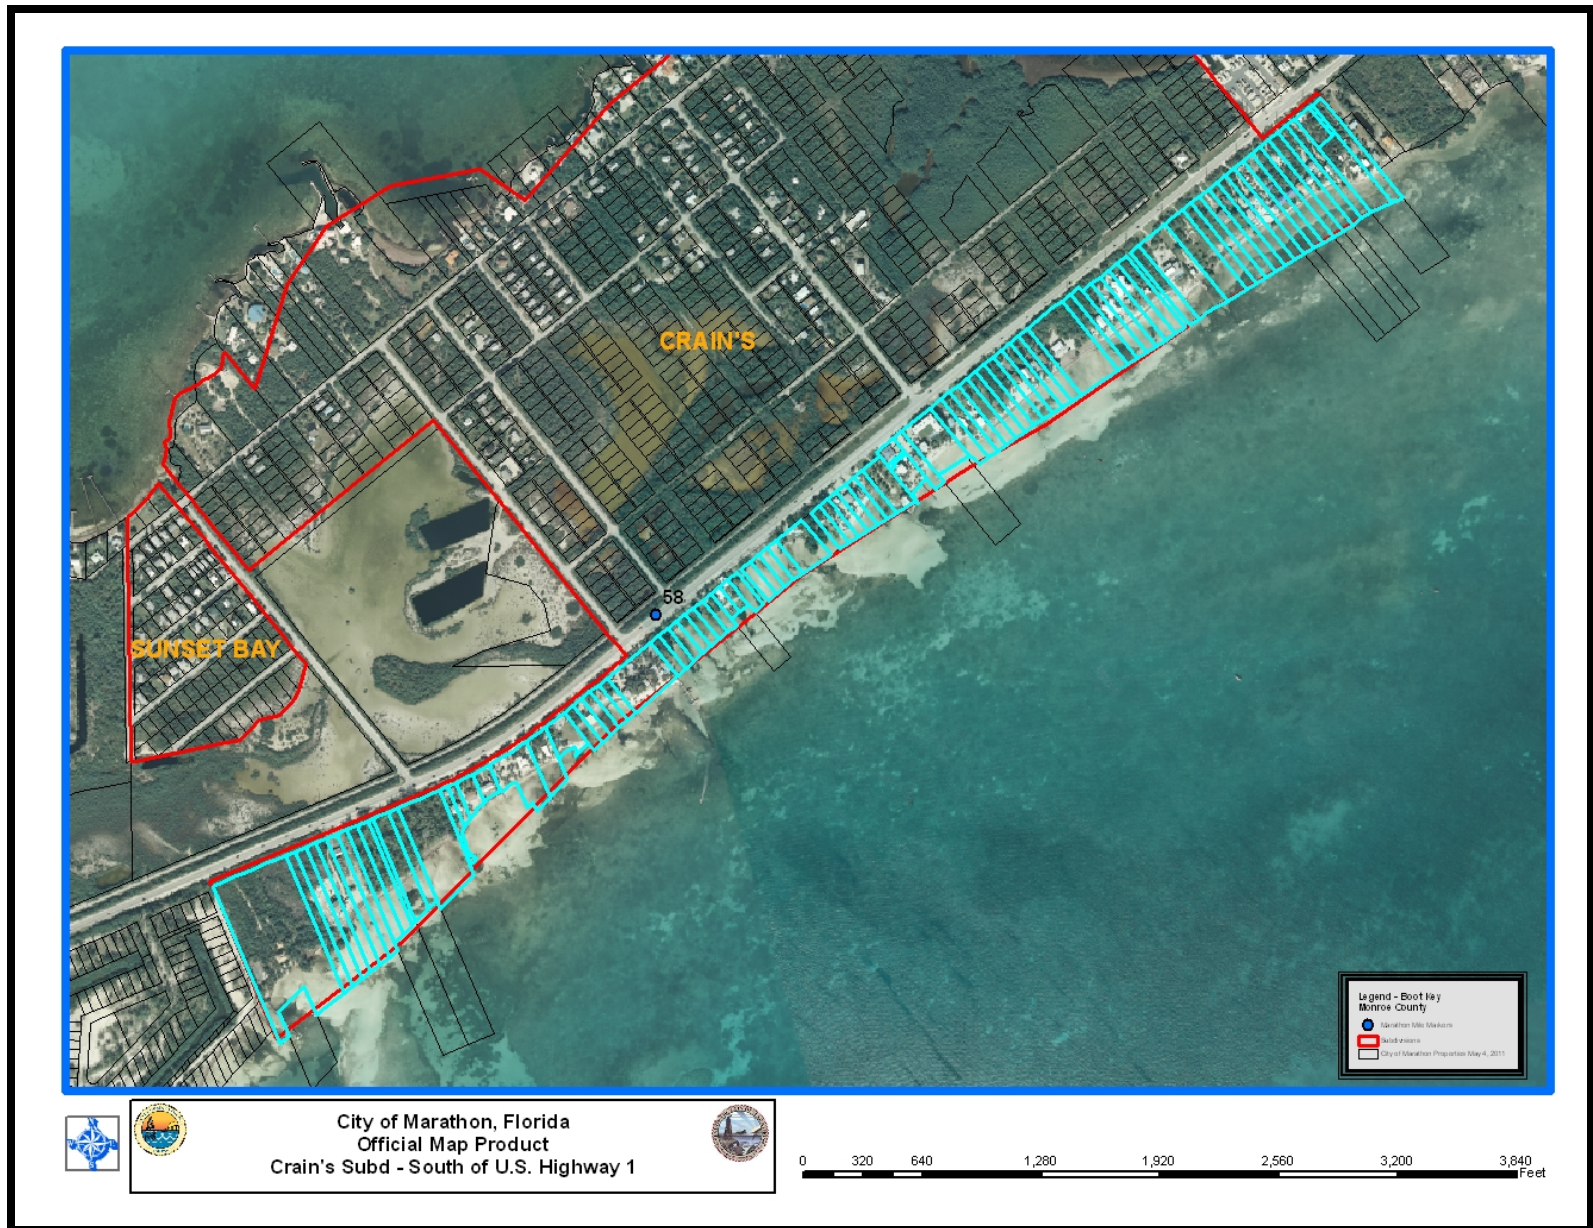

Figure 3
Crain's Subdivision of Grassy Key – Developed Oceanfront Shoreline Properties

- b. Whether the proposed abandonment will adversely affect public access to and from the water;

Staff Assessment: Public access to water is not available from this section of Flagler Street. There, are two unnamed streets in Crain's Subdivision that lead from Flagler Street to open water on the ocean. Council previously abandoned one ROW that has historically been used as a driveway. Therefore, this proposed abandonment will not adversely affect public access to and from the water.

- c. Whether the proposed abandonment will adversely affect pedestrian or vehicular traffic, or the commercial viability of business within 300 feet of the right-of-way to be abandoned;

Staff Assessment: Vehicular and pedestrian traffic do not currently utilize Flagler Street Ocean; thus, Criterion #3 is rendered moot.

- d. Whether the proposed abandonment will adversely affect a public view corridor;

Staff Assessment: The property has been improved with a residential compound and a concrete block front wall since the 70s. No further disruption of the view corridor is possible.

- e. Whether the proposed abandonment will deprive other property owners of access to and from their property; and

Staff Assessment: The applicants own all of the properties adjacent to and abutting the right-of-way; therefore, this criterion does not apply.

- f. Whether the proposed abandonment will interfere with utility services being provided, or unreasonably affect any utility easement.

Staff Assessment: The applicant submitted non-objection letter from AT&T, Comcast, FKAA, and FKEC without objection.

Provided that the owners comply with the conditions stated above the abandonment would not interfere with the utility services being provided currently or in the future.

The City Council shall consider and may impose modifications or conditions concerning, but not limited to the following:

1. Approve the application for the abandonment of public right-of-way;
2. Approve the application for the abandonment of public right-of-way with conditions;
or
3. Deny the application for the abandonment of public right-of-way.

Based on the above criteria, City Staff is therefore forwarding a recommendation of **approval** of this application.

Stakeholders

The Planning Department held a Technical Review Committee meeting to receive input from all affected City departments. The Public Works and Utilities Departments requested that the applicant grant the City a utility easement for all existing and future utilities. The applicant has indicated they agree to provide to the City an easement for existing and future utilities.

Consistency With Adopted Plans And Policies

In addition to the above discussion in the Analysis section, this application complies with the requirements of Chapter 26 of the City of Marathon City Code and with the requirements of the City of Marathon Comprehensive Plan. This application specifically complies with comprehensive plan policies discouraging the abandonment of rights-of-way that provide public access to water bodies.

Recommendation:

Based on review of the application, Staff is recommending **Approval** of the request to abandon a portion of City right-of-way located on Flagler Street, Ocean, Crain's Subdivision, Grassy Key. The application is consistent with state and local law, and the applicants have submitted letters of no objection from the utility companies.

Conditions:

1. The applicant will convey a utility easement (in a form acceptable to the City Attorney) to the City and all utilities on and under all of the abandoned right-of-way.
