MEMORANDUM

DATE: March 12, 2024
TO: Honorable Mayor and City Councilmembers
FROM: Carlos A. Solis, P.E. Director of Public Works & Engineering
THROUGH: George Garrett, City Manager
SUBJECT: Debris Contracts Renewal

The City is currently under contract with three separate firms to provide Emergency Disaster Response Services in the event of a declared emergency for debris removal and other emergency services as may be required. These contracts have a term of three years and are set to expire in May. All contracts have a provision for an option to extend the contract for an additional three years, and a second extension of three years. If extended, this would be the first extension. We have reached out to the contractors about extending the contracts at the current rate and have received confirmation from two out of the three. Staff recommends that the contracts be extended at the current pricing, which were established prior to the recent inflation of the last two years. All terms and conditions of the original contracts shall remain in effect. Upon confirmation from the council, the contracts shall be extended prior to their expiration.
