

COUNCIL AGENDA STATEMENT

Meeting Date: February 10, 2026
To: Honorable Mayor and City Councilmembers
From: Brian Bradley, Deputy City Manager
Through: George Garrett, City Manager
Agenda Item: City Vehicles

BACKGROUND & JUSTIFICATION:

Council had asked a series of questions involving city vehicles in an attempt to assess whether the City had too many vehicles. A list of vehicles and who they are driven by was put together.

. I did a comparison of other municipalities on their ratio of vehicles verses employees.

City of Marathon:

162 employees and 63 vehicles – 2.57 employees per vehicle

Islamorada VOI:

132 employees and 54 vehicles – 2.44 employees per vehicle

Key Colony Beach:

19 employees and 8 vehicles – 2.37 employees per vehicle

Monroe County:

600 employees and 355 vehicles – 1.69 employees per vehicle

In our area we have the lowest number of vehicles per employee.

In our fleet we have a total of 54 trucks and 9 cars. This does not include the Semi/sprinter vehicles (a total of 15) used by FIRE/EMS or Waste Water.

Additionally a question was asked about insurance premiums. If we choose a standard F150 as a baseline to average out cost—that cost under our policy is \$600.87 dollars yearly,

So a standard F150, the price is \$600.87 for the yearly premium.

$600.87 \times 54 \text{ trucks} = \underline{\$32,446.98}$ Total insured cost.

This is not exact as I chose an average style truck so the actual price is somewhat different.

The total cost of the fleet policy **(96 things consisting of 18 trailers, 54 trucks, 9 cars, 15 various EMS, Semis and sprinters)**

THIS TOTAL COST =

\$ 74,825
