

US 1 construction schedule

MARATHON, FL (Aug. 27, 2026) – Motorists on U.S. 1 in Marathon may notice periods of inactivity during construction related to the city's Deep Injection Well project.

DBE Utilities workers are on an 11-days-on, three-days-off schedule; motorists may observe sites without workers present on some days because of this schedule.

The schedule may vary slightly depending on the bore pit location and the progress of work from one bore pit to the next.
