Florida Municipal Pension Trust Fund – DB 60% Equity Allocation Executive Summary

As of December 31, 2023

60% Equity Allocation

- The US Fed held its benchmark rate steady in December and provided updated projections that drove optimism around the pace of 2024 rate cuts. Declining interest rate expectations fueled a rally in asset prices, and stocks and bonds both ended the year on a winning streak. Equity pricing is discounting a soft landing and a relatively brisk pace of cuts from the Fed, so the path of rates will be a key risk to equity prices in 2024. Real estate returns could continue to be challenged amid higher interest rates, tighter lending conditions, and reduced demand for office space. The 60% Equity Allocation achieved a strong absolute return in the fourth quarter but moderately trailed the Target Index (up 7.9% vs. up 8.4%).
- This allocation has earned an 8.2% average annual return over the past 5 years, nearly matching the performance of the Target Index (up 8.3%).
- Over the past 10 years, this allocation is up 6.4% on average annually. While this performance is slightly behind the target index (up 6.7%) the riskcontrolled nature of many of the underlying strategies are designed to provide downside protection should the markets continue to moderate or decline.

FMIvT Broad Market High Quality Bond Fund

- The Broad Market High Quality Bond Fund modestly trailed the Bloomberg US Aggregate A+ Index in the fourth quarter (up 5.8% vs. up 6.5%). The Fund's underweight to investment grade credit posed a headwind in the fourth quarter, but has been prudent over the longer term as the Fund has outpaced the benchmark by over 60 basis points on average annually over the past 3 years and ranks in the top 39th percentile of its peer group of US fixed income mangers.
- The portfolio's conservative risk profile and high quality bias are in line with the objectives for this fund. This bias has rewarded investors in the form of a more favorable relative risk-adjusted return comparison over the long-term.

FMIvT Core Plus Fixed Income Fund

- The Core Plus Fixed Income Fund posted strong relative results in the fourth quarter, rising 7.8%). The fund benefited from continuing to hold an overweight to credit. However, with the US recession risk still in play as we move forward in 2024 the Fund has been stepping up in quality bias, favoring securitized over corporates and within corporates, financials over industrials. Over the last 3 years, the fund has outpaced the benchmark by over 420 basis points.
- In the 9 years since inception, the Core Plus Fixed Income Fund has posted absolute returns of 1.7% on average annually, ahead of the benchmark (up 0.5%).

FMIvT Diversified Large Cap Equity Portfolio

- The fund is allocated 60% to the SSgA S&P 500 Fund, and 20% each to the Hotchkis & Wiley Diversified Value Fund and the Atlanta Capital High Quality Growth Fund. This fund provides investors with exposure to core, value, and growth opportunities within the US large cap equity marketplace. The SSgA S&P 500 Fund replaced Intech in the fourth quarter.
- U.S. equities rebounded from the 3rd quarter difficulties with equity pricing discounting a soft landing and a relatively brisk pace of interest rate cuts from the fed. The underweight to the information technology and consumer discretionary sectors, and thus, being underweight to the Magnificent 7, was the biggest driver in the 4th quarter underperformance for the Diversified Large Cap Equity Portfolio (up 10.4% vs. up 12.0%).
- Over the trailing 5 years, the Diversified Large Cap Equity Portfolio has matched the performance of the Russell 1000 benchmark (both up 15.5%) and ranked in the top 41st percentile of its peer group of US large cap core equity managers.

Florida Municipal Pension Trust Fund – DB 60% Equity Allocation Executive Summary

As of December 31, 2023

FMIvT Diversified Small to Mid Cap Equity Fund

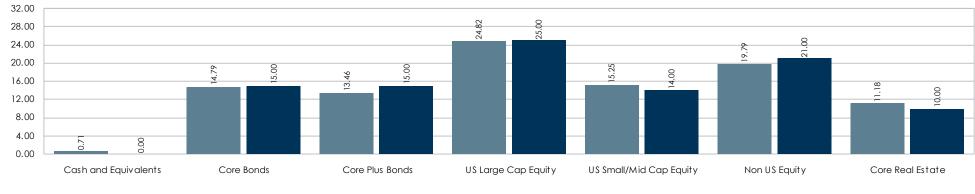

- This strategy was challenged in the fourth quarter as higher risk/lower quality stocks rallied on lower interest rates to end the year, with the highquality bias and negative stock selection hindering the performance. Despite these near-term difficulties, the Fund has outperformed the benchmark by over 500 basis points on average annually over the past 3 years.
- This strategy has generated very strong results over the past 10 years, rising 12.2% on average annually compared with 8.4% for the benchmark. Furthermore, the fund ranked in the top 8th percentile of its peer group, with a more modest risk profile and very strong risk-adjusted returns.

FMIvT International Equity Portfolio

- The FMIvT International Equity Portfolio rebounded in the fourth quarter, outpacing the MSCI ACWI ex US Net benchmark by over 150 basis points
 and ranking in the top 27th percentile of its peer group of international equity managers. Strong stock selection in the industrials and technology
 sectors, coupled with an underweight to China, provided a boost to the portfolio to end the year.
- Despite some of the struggles over the past 3 years, the portfolio has outperformed the benchmark over the past 5 years (up 8.3% vs. up 7.1%).
- This strategy is intended to provide strong diversification across the broad spectrum of equity markets outside the US, with exposure to both developed and emerging markets.

FMIvT Core Real Estate Portfolio

- In early 2023, a \$50 million redemption was submitted in order to rebalance the portfolio with the proceeds scheduled to be paid out over several quarters. This will reduce the total commitment to \$100 million once all the proceeds are received.
- While declining 4.7% over the trailing one year, the FMIVT Core Real Estate portfolio significantly outperformed the benchmark (down 12.7%) with the large allocation to industrial properties providing the biggest boost. The office sector has continued to drag on performance with corporate work from home policies increasing vacancies.
- The portfolio has outperformed the NFI ODCE Net benchmark over the past 3 years and has achieved 330 basis points of excess return over the benchmark over the past 5 years.

This Disclosure is intended to provide information with respect to Chapter 175 and 185 Police and Fire Plan's required disclosure of direct or indirect holdings in any "scrutinized companies" as defined in the FSBA PFIA Quarterly Report for Quarter 4 2023.

It is important to note that individual Police and Fire Plans have no direct interests in any scrutinized companies. Police and Fire Plans hold an interest in the Florida Municipal Pension Trust Fund. It is also important to note that the Florida Municipal Pension Trust Fund has no direct interests in any scrutinized companies as all of its interests are invested in the Florida Municipal Investment Trust.

The Florida Municipal Investment Trust is the only entity that could possibly have direct interests in any scrutinized companies. ACG has reviewed the **Protecting Florida's Investments Act (PFIA) Quarterly Report-December 19, 2023** that is available on the Florida SBA website. We have reviewed the list of companies appearing in **Tables 1 and 3- Scrutinized Companies with Activities in Sudan and Iran**, and compared these lists to securities of companies held directly by the Florida Municipal Investment Trust. As of 12/31/2023, the Florida Municipal Investment Trust had no direct interest in securities on the above referenced lists.

ACG also requested that investment managers, who manage commingled funds that are owned by the Florida Municipal Investment Trust, review the **Protecting Florida's Investments Act (PFIA) Quarterly Report-December 19, 2023** and disclose whether the Florida Municipal Investment Trust may hold any scrutinized companies indirectly through investment in their respective commingled funds. All managers have confirmed that they do not hold any of these securities.
