Dear George,

Thank you for your continued business from each of us at Revinu. We all appreciate the opportunity to provide our services to the City of Marathon. As the influences of the pandemic continue to unfold nationally and globally, we have been working diligently to adjust the way we do business to minimize the negative effects on our customers while striving to perform at the highest level. We have covered the burden of additional expenses, rising costs and unknowns to date, in the best interest of our customers. During these times we have implemented efficiencies to continue to navigate the existing environment; however, continued rising costs have necessitated a price increase. These unprecedented times have not allowed anyone time to properly prepare or respond within existing business practices and requires action outside of our current business framework.

In an effort, to navigate the current environment together, we will only apply a 12% surcharge to contracts based on unforeseen and uncontrollable events driven from the pandemic, current world economic conditions, acts of governments, record inflation, and the resulting soaring price of fuel. Diesel fuel prices alone have increased 59% since May of last year, the cost of qualified labor has increased 22%, and a disrupted supply chain globally that has increased our costs significantly regarding all aspects of business including Employees, Capital, Parts and Services.

As we have in the past, we keep the customer's best interest in the forefront of every decision and will work diligently to ensure we nullify or minimize the requirement of any future adjustments if costs continue to rise.

The surcharge of \$.029 per gallon will go into effect on July 1, 2022.

Please contact me directly if you have any questions. We look forward to continuing to strive to exceed your expectations and all of us at Revinu thank you for the continued opportunity to service the City of Marathon.

Best Regards,
