**Re: 33<sup>rd</sup> Street Corridor – Contract Amendment Number 01  
Project No. 22015**

Dear George,

This letter is Amendment Number 01 to the Agreement (“Agreement”) between K2M Design, Inc. (“Architect”) and the City of Marathon (“Client”) for the performance of services in connection with the 33<sup>rd</sup> Street Corridor (“Project”). The purpose of this letter is to request additional funds for the addition of a fire station, development of two additional design options to be considered, and design direction/suggestions to unite a Civic District as originally envisioned in the 2006 Marathon Master Plan. This Amendment is effective as of the date of this letter. All other terms and conditions of the Agreement not previously amended or specifically modified by this Amendment remain in effect.

Architect / Engineer and Client modify the Agreement as follows:

At the initial workshop/charette, the Client added the stipulation that the new municipal complex must include a three-bay fire station. In additional meetings with City leaders, the possibilities of expanding the site to include part of the adjacent FCAA parcel, the current FHP parcel on US1, and relocating the Yacht Club were envisioned. Architect will provide (2) additional site plan options incorporating these parcels for 33<sup>rd</sup> Street area including the corner with US1.

Additionally, Architect will provide a design narrative and conceptual plan for elements to define a Civic District along US1 as envisioned in the City’s 2006 Master Plan. These elements can be incorporated into future projects over time to create a cohesive and distinguishable identity for this southern end of the City that provides multiple services for residents.

Additional services include:

- (2) additional site plan options
- (1) additional charette with the City
- Incorporating a fire station on current property
- Narrative of design and conceptual ideas for development of future Civic District

*A fixed fee of TWENTY-SEVEN THOUSAND TWO HUNDRED DOLLARS (\$27,200.00) is requested to complete these services. Design Phase Services will be completed within 60 days of execution. (Timeframe is dependent on Client input response time.)*

BUILDING RELATIONSHIPS BASED ON TRUST AND RESULTS.

Stipulations:

- All stipulations from the Base Agreement and Amendments remain intact.
- Future changes beyond scope above will constitute an additional Amendment.

If the terms of this Amendment meet with your approval, please indicate by signing and returning one copy of this letter to us. If you have any questions, please do not hesitate to call. Thank you.

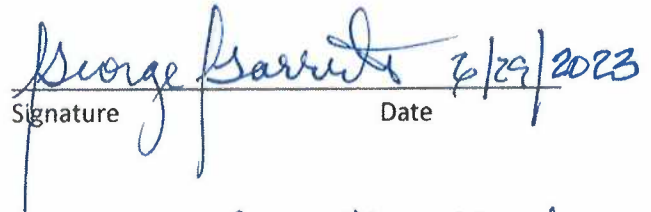

Sincerely,
