REVISED GRANT WORK PLAN**

PROJECT TITLE: Stormwater Injection Well Project

PROJECT LOCATION: The Project will be located in the City of Marathon within Monroe County; Lat/Long (24.7139, -81.0765).

PROJECT BACKGROUND: The City of Marathon (Grantee) will perform an evaluation and retrofit project on the existing stormwater management system located along Sombrero Boulevard. The existing stormwater management system serves City right-of-ways and private properties located on Sombrero Boulevard. The existing stormwater system is comprised of inlet structures, gravity injection wells, and solid and perforated pipe installed as part of the citywide stormwater project. The elevations in the area are low and the current system does not have the capacity to remove surface water from the right-of-way during some storm events, particularly during high tide. The retrofit project will enhance stormwater quality in the vicinity by collecting stormwater runoff prior to direct discharge into nearshore waters.

PROJECT DESCRIPTION: The Grantee will perform an evaluation of the existing stormwater management system along Sombrero Boulevard to inform the retrofit of a stormwater injection well and provide a recommendation of additional upgrades to the system. Based on the results of the evaluation the Grantee will retrofit a permanent stormwater injection well to alleviate flooding that occurs on Sombrero Boulevard.

Task 1: Preconstruction Activities

Deliverables: The Grantee will complete the design of the retrofit of the stormwater injection well and obtain all necessary permits for construction of the project. The Grantee will also conduct an evaluation of the existing stormwater management system along Sombrero Boulevard to inform the retrofit of the stormwater injection well and provide a recommendation of additional upgrades to the system. Activities necessary for design, such as surveys, geotechnical evaluations, pre-design studies, and environmental assessments are eligible under this task.

Documentation: The Grantee will submit a signed summary of activities completed for the period of work covered in the payment request, including the percentage of design complete and permitting status, using the format provided by the Department's Grant Manager. For the final documentation, the Grantee will also submit a copy of the design completed with the funding provided for this task, a list of all required permits identifying issue dates and issuing authorities, stormwater management system evaluation results and a recommendation of upgrades to the system, and copies of any surveys, assessments, or other documents funded under this task. Upon request by the Department's Grant Manager, the Grantee will provide additional supporting documentation relating to this task.

Performance Standard: The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, a payment request may be processed.

Payment Request Schedule: The Grantee may submit a payment request for cost reimbursement no more frequently than monthly.

REMAINDER OF PAGE INTENTIONALLY LEFT BLANK

Task 2: Bidding and Contractor Selection

Deliverables: The Grantee will prepare a bid package, publish a public notice, solicit bids, conduct pre-bid meetings, and respond to bid questions in accordance with the Grantee's procurement process, to select one or more qualified and licensed contractors to complete construction of the stormwater injection well.

Documentation: The Grantee will submit: 1) the public notice of advertisement for the bid; 2) the bid package; and 3) a written notice of selected contractor(s).

Performance Standard: The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, a payment request may be processed.

Payment Request Schedule: The Grantee may submit a payment request for cost reimbursement following the conclusion of the task.

Task 3: Construction

Deliverables: Based upon the results of the evaluation the Grantee will construct a retrofit of an existing stormwater injection well located on Sombrero Boulevard in accordance with the final design.

Documentation: The Grantee will submit a signed summary of activities completed for the period of work covered in the payment request, using the format provided by the Department's Grant Manager. Upon request by the Department's Grant Manager, the Grantee will provide additional supporting documentation relating to this task.

Performance Standard: The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, a payment request may be processed.

Payment Request Schedule: The Grantee may submit a payment request for cost reimbursement no more frequently than monthly.

Task 4: Project Management

Deliverables: The Grantee will provide project management services related to the Stormwater Injection Well Project, to include review of documents and forms, budget oversight, preparation and submittal of quarterly progress reports, processing of payment requests and related documentation, field engineering services, construction observation, site meetings with construction contractor(s) and design professionals, and overall project coordination and supervision.

Documentation: The Grantee will submit a signed summary of activities completed for the period of work covered in the payment request, using the format provided by the Department's Grant Manager. Upon request by the Department's Grant Manager, the Grantee will provide additional supporting documentation relating to this task.

Performance Standard: The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, a payment request may be processed.

The recipient further agrees to comply and cooperate with any inspections, reviews, investigations, or audits deemed necessary by the Chief Financial Officer (CFO) or Auditor General.

AUDITS

3. A recipient that expends less than \$1,000,000 in federal awards in its fiscal year is not required to have an audit conducted in accordance with the provisions of 2 CFR Part 200, Subpart F-Audit Requirements. If the recipient expends less than \$1,000,000 in federal awards in its fiscal year and elects to have an audit conducted in accordance with the provisions of 2 CFR 200, Subpart F-Audit Requirements, the cost of the audit must be paid from non-federal resources (i.e., the cost of such an audit must be paid from recipient resources obtained from non-federal entities).
4. The recipient may access information regarding the Catalog of Federal Domestic Assistance (CFDA) via the internet at <https://sam.gov/content/assistance-listings>.

In determining the state financial assistance expended in its fiscal year, the recipient shall consider all sources of state financial assistance, including state financial assistance received from the Department of Environmental Protection, other state agencies, and other nonstate entities. State financial assistance does not include federal direct or pass-through awards and resources received by a nonstate entity for Federal program matching requirements.
2. In connection with the audit requirements addressed in Part II, paragraph 1; the recipient shall ensure that the audit complies with the requirements of Section 215.97(8), Florida Statutes. PART III: OTHER AUDIT REQUIREMENTS

(NOTE: This part would be used to specify any additional audit requirements imposed by the State awarding entity that are solely a matter of that State awarding entity's policy (i.e., the audit is not required by Federal or State laws and is not in conflict with other Federal or State audit requirements). Pursuant to Section 215.97(8), Florida Statutes, State agencies may conduct or arrange for audits of State financial assistance that are in addition to audits conducted in accordance with Section 215.97, Florida Statutes.
